

Back Office

We can design scope of the back office for each client to fit the needs and budget.

Currently, we offer below as part of back office but can also expand our services to cover order entries & invoicing if needed.

- Client data entry & management
- Print price ticket/ bar code label
- Generate receiving ticket
- Generate pick ticket
- Generate commercial invoice for international shipment
- Customer service for retailers & E com customers
 1. Customer communication
 2. Pick up request
 3. Exchange / return
- Generate reports upon request
